

To whom it may concern:I recently began listening to XM Sat Radio. It is one of the best investments I have made.

I travel a wide geographic area and find the instant weather and traffic very important in my travels. The variety and quality of the available stations is unmatched. I was tired of a barrage of commercials and repetition of songs from traditional radio.

I was surprised to learn of the National Association of Broadcasters petition 04-160. I am willing to pay for my XM so that I can have my needs and desires met. In a Free Market society competition should rule.

I respectfully request that you reject NAB's petition 04-160. I support XM's ability to provide programming and choices I want, and I ask you to do the same.
